

“Visiting science museums as a small child fueled my desire to be an engineer. I am excited to have an opportunity to pay it forward to generations to come.”

**David Haas, Director  
Engineer, Volunteer, Leader, Parent**

- Bachelor of Science in computer science, California State University, Northridge
- Director of heliostat development at SolarReserve LLC in Santa Monica
- Former president of Ventura County Search and Rescue, Inc., 17 years of volunteer service
- Board of Trustees, Ronald McDonald House

David has over 30 years of experience managing large programs for the space industry including several years as deputy program director, extreme engineering at Aerojet Rocketdyne and senior manager at Deloitte & Touche LLP servicing the Energy sector. One of his goals with kidSTREAM is to help create tomorrow's leaders.
