

“As a mechanical engineer and a parent, I feel every opportunity to give kids exposure to the arts and sciences will only benefit us all. Assisting kids to experience how cool science is and what can be done with it to discover and design something new—now that is fun!”

**Stuart Long, Director
Parent, Engineer, Volunteer**

- Bachelor of Science in mechanical engineering, California State University, Long Beach
- Owner/Principal Engineer, S2 Engineering and Consulting
- Global Director of Engineering, Mega Brands, Montreal, Quebec, Canada
- Director of Engineering, Jakks Pacific, Malibu, Calif.
- Staff Engineer/Supervisor, Mattel, Inc., El Segundo, Calif.

Stuart and his family enjoy the outdoors as much as possible from hiking, biking, skiing and surfing to hanging out on the soccer fields and at the aquatic center. Stu is a mechanical engineer by trade, and owner of S2 Engineering, where he specializes in product design and engineering consulting. Stu owns 3 patents on products he has designed. Prior to working on his own, Stu developed products for Mattel for 10 years. He volunteers his free time on Fillmore's Search and Rescue team, is on their board and in charge of training.
